

Statement of FDCC Compliance

In accordance with OMB Memo m07-18, Design Science has tested MathFlow 1.7 with the Security Configuration Automation Protocol, and certifies its compliance with the Federal Desktop Core Configuration (FDCC). Specifically:

1. MathFlow is fully functional and operates correctly as intended on systems using the FDCC with Windows Vista.
2. MathFlow does not alter configuration settings from the approved FDCC configuration.
3. MathFlow runs with standard user privileges and does not require administrator access.
